AMP is the premier manufacturer of standard & custom electrical distribution products, committed to finding you *Solutions For Power.*

AMP BUSSED GUTTER DETAILS

Bussed gutter units serve as a distribution point for multiple load applications under a common feed with a wall mounted installation and aluminum or copper bussing. The termination sections are available in 30" and 60" widths. The bus sections are only available in 60" widths and they can be field installed at a later time. The product is rated 600V 3 phase or 1 phase rated from 600A up to 2500A. Custom designs available up to 4000A please contact your sales representative for design options.

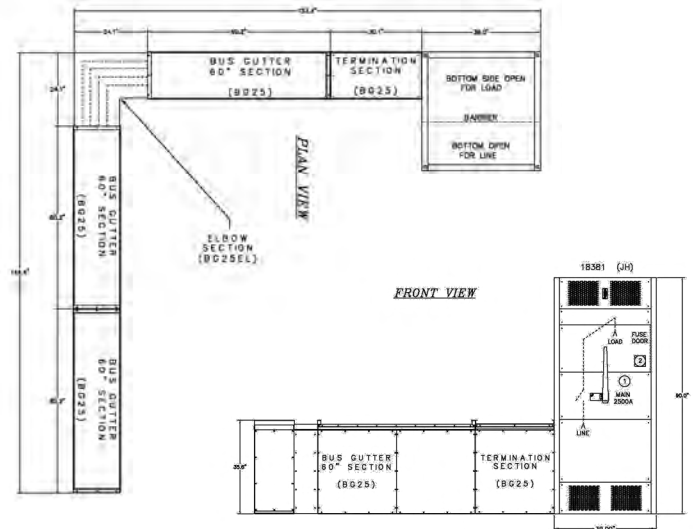

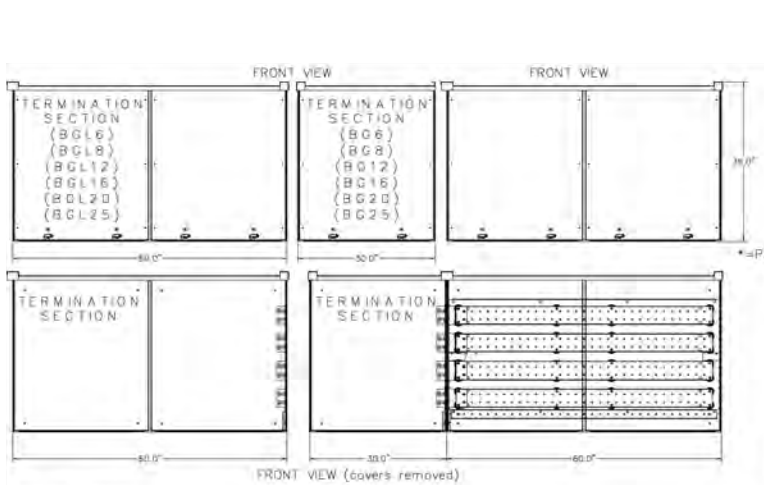

Bussed gutter is built to order.
